Summary

Senior Software Engineer with 8 years in the tech industry (since Jul 2018) and 5-6 years of hands-on engineering with React and modern frontend ecosystems (since Sep 2020). Track record architecting high-performance, secure, user-centric financial and healthcare applications.

Experience

Senior Software Engineer -- Photon Interactive Pvt Ltd (Client: JPMorgan Chase and Co) | Apr 2025 - Present

- Architecting scalable financial workflows and secure enterprise banking portals leveraging SSR optimizations to lower load speeds.
- Implemented streamlined data-fetching using RTK Query for predictable state and low-latency, heavily cached API footprints.
- Engineered clean RESTful backend support logic using Node.js for decoupled full-stack communication.

Front-End Developer -- CareMe Health Pvt Ltd | Sep 2020 - Mar 2025

- Designed and launched responsive cross-platform appointment booking interfaces for healthcare access.
- Contributed to secure Electronic Health Records (EHR) integrations meeting healthcare regulatory standards.
- Developed real-time video modules, contextual chat windows, and cross-platform push notifications.

Technical Support Trainee -- Satvat Infosol Pvt Ltd | Jul 2018 - May 2020

- Supported web infrastructure for high-concurrency online examination platforms.

Skills

Frontend: React.js, Next.js, React Native, TypeScript, JavaScript (ES6+), HTML5, CSS3

State & Data: Redux, Redux Toolkit (RTK), RTK Query, REST APIs

Styling: TailwindCSS, Bootstrap, Responsive Design

Backend/Cloud: Node.js, Firebase

Selected Projects

- Enterprise Banking Web Application -- secure, high-traffic banking platform; SSR + code-splitting for faster loads.
- Mental Health Appointment Booking Platform -- cross-platform booking with real-time video/chat.
- High-Performance API and State Management System -- centralized RTK Query caching layer.
