SUMMARY

Senior Frontend Engineer with 8+ years of experience, including 5+ years in React. Specialized in building scalable, high-performance applications across fintech, healthcare, and AI/e-commerce domains. Strong expertise in frontend architecture, real-time systems, AI-driven integrations, and API-driven development using React.js, Next.js, React Native, and RTK Query.

SKILLS

Frontend Technologies

React.js, Next.js, React Native, Redux, RTK Query

Languages & Styling

JavaScript (ES6+), TypeScript, HTML5, CSS3, TailwindCSS, Bootstrap, SaltDS

Architecture & System Design

Microfrontend Architecture, Nx Monorepo, Scalable Frontend Architecture

Testing & Quality

Jest, MSW (Mock Service Worker)

Backend & Integrations

Node.js, Firebase, REST API Integration

Performance & Optimization

Code Splitting, Lazy Loading, Performance Optimization

UI/UX & Compatibility

Responsive Design, Cross-Browser Compatibility, UI/UX Optimization

Maps & Location Services

Google Maps API, Geolocation, Route Optimization

PROFESSIONAL EXPERIENCE

Senior Frontend Developer — OnTrac AI

Jul 2026 – Present

- Developing a Ford parts locator marketplace, an e-commerce-style platform for parts search, filtering, and discovery
- Integrating AI-driven features into client websites based on evolving project requirements
- Building responsive, high-performance UI components using React.js and Next.js
- Collaborating with cross-functional teams to translate business requirements into scalable frontend solutions

Senior Software Engineer — Photon Interactive Pvt Ltd (Client: JPMorgan Chase & Co.)

Apr 2025 – Jul 2026

- Built scalable enterprise banking applications using React.js and Next.js for high-traffic financial workflows
- Improved performance using SSR, code splitting, and modular architecture
- Implemented RTK Query for efficient data fetching and caching, reducing redundant API calls
- Developed REST APIs using Node.js for secure frontend-backend communication
- Collaborated in agile teams, ensuring code quality, security, and best practices

Frontend Developer — CareMe Health Pvt Ltd

Sep 2020 – Mar 2025

- Developed cross-platform applications using React and React Native for web and mobile platforms
- Integrated real-time video conferencing and chat systems for healthcare services
- Contributed to Electronic Health Records (EHR) integration ensuring secure data exchange
- Implemented map-based navigation and routing using Google Maps APIs (TravelMart feature)
- Built dynamic form builders and notification systems to improve user engagement
- Optimized performance and ensured cross-browser compatibility across platforms

Technical Support Trainee — Satvat Infosol Pvt Ltd

Jul 2018 – May 2020

- Provided technical support for online platforms, ensuring system stability and uptime
- Resolved system and network issues, improving operational efficiency
- Mentored junior team members and improved support workflows

KEY PROJECTS

Ford Parts Locator Marketplace (AI-Integrated)

- Building an e-commerce-style parts marketplace with search, filtering, and discovery for locating Ford parts
- Integrating AI-driven features into client-facing websites based on project requirements
- Developing with React.js and Next.js for a responsive, high-performance experience

Enterprise Banking Application

- Built scalable banking platform using React.js, Next.js, and RTK Query
- Optimized performance using SSR and caching strategies
- Developed secure REST APIs using Node.js

Mental Health Platform (Video + EHR)

- Developed cross-platform application using React and React Native
- Integrated real-time video conferencing and chat features
- Ensured secure healthcare data handling and EHR integration

Real-Time Video & Chat System

- Built real-time communication platform using React, Firebase, and SDK integrations
- Implemented secure messaging, notifications, and low-latency streaming

EDUCATION

B.E (ECE) — KRS College of Engineering (2017)

CORE EXPERTISE

React Ecosystem | Scalable Frontend Architecture | Real-Time Systems | AI Integration | API-Driven Development
